

Sending printed invoices through the post is expensive & time consuming & can be unpredictable!

Postage is becoming expensive.!

Who knows when the next Post Office strike will strike?.

Too much mail goes missing in the postal system!

Customers want their invoices delivered promptly or they delay paying you.

If the above rings true to you then we've got something you will like!

We've got the solution:

We call it "**Power Bulk Email Invoices**". **What exactly does it do?**

You raise invoices (& cr notes) throughout the month. When the month's postings are captured, from SOP/Utilities you select our menu option "Email Invoices".

This program will email all invoices raised in the current month to the person whose email address is entered on the Sales Processing form in SL provided the "E-mail statements flag is ticked." An audit log is also optionally printed.

What's the benefit to you?

- Save on the cost of envelopes and stamps!
- Save on the time to collate & envelope the invoices!
- Get your invoices to the customer before they can blink.

A sample layout of what the emailed invoice will look like can be view by pressing this link "[View Sample](#)".

- Released: Sept 09
- For all Opera II users who need to deliver their invoices as fast as possible
- Never worry if the Post Office is on strike.
- It's very quick.
- It's cheaper
- It's impressive
- It's helps cash flow

Email your invoices & relax sooner
